

New Times Article: I am greatly impressed!

**** **<P align=justify>**Dear Editor, **** **<P align=justify>**I would like to appreciate the Rwandan government in its move to change from analogue to digital broadcasting. **<P align=justify>**I was impressed with some benefits of digital broadcasting; some are high quality pictures, Power consumption of transmitters is very low, editing in the digital domain in broadcasting studios is much faster and safer as compared to analogue, copying a 60 second analogue spot, takes 60 seconds while 10 megabyte file takes only some few minutes. **<P align=justify>**And one frequency of analogue can operate a Television while in digital broadcasting a frequency can accommodate four to ten programs depending on the quality needed as pictures may not be clear after four stations. **<P align=justify>** **<P align=left>** ****Kicukiro****
